

Smart PC power saving contact box

General information

This smart PC power saver is designed to cut down the standby power consumption of your connected PC in order to reduce the energy costs and therefore save money. This power saver will automatically turn off the power after you've shut down the PC. The EL-ES04HQ is very easy to operate. 4 Of the 5 outlets will be disconnected while the other outlet remains powered.

Attention on the product, the manual and on the packaging is the wrong minimum power consumption mentioned. Correct is 0,5W wrong is 0,25W!!
